

3. Frank works at a store that offers an employee discount of 15% off all purchases at regular price. He would like to purchase a sweater that has a regular price of \$45. Right now there is a coupon for \$5 off the regular price. Should he use the \$5 off coupon or use his 15% employee discount?

4. The current exchange rate is 1 Canadian dollar to 0.75 US dollars. If you are going shopping in the US and have \$150 Canadian dollars, how much US dollars will you receive?
